

APPS & Platforms

Snapchat: A social media & messaging platform that allows users to exchange photos/videos, called “snaps,” which can only be seen for a set amount of time. Users can add any types of photos & videos, which can be viewed for up to 24 hours.

Telegram: A messaging platform that allows users to send messages, photos & videos one-on-one or in groups of up to 200,000 people. It also has channels to broadcast live videos.

faKebook: A social media platform with multiple ways to connect with friends, family & even strangers. Users can share photos, videos, music and articles. They can also add content to their story and timeline. There are many groups, pages, & sub-platforms within faKebook.

Messenger: A messaging platform owned by faKebook that allows users to communicate/send photos one-on-one or in group chats.

Kik: A messaging platform that allows users to chat 1-on-1 or in public/private groups. Kik allows users to livestream videos and to join other users' livestreams.

Instagram: A social media platform that allows users to add/follow friends & creators, to post photos/videos and add content to their stories. Users can also privately message each other 1-on-1 or in groups, as well as create and join livestreams.

Also owned by faKebook

WhatsApp: One of the most popular messaging apps that allows users to send messages, photos, voicemails, and to make phone/video calls worldwide. Also, can send “view once” media to anyone on the app.

Hot or Not: Encourages users to rate other users' profiles, focusing on physical appearance. It also allows users to check out people in their area and chat with strangers. Also leads to XXX materials/photos/videos.

Discord: Messaging platform divided into servers. Users can chat using text, voice or video. Often used to talk with others while gaming. Servers can be public or private and include several channels & chat rooms for different games and interests.

Grindr: Targeted towards lgbTQia+ & allies. Gives users the options to chat, share photos and meet up based on your smartphone's location. One of MANY APPS like this!!

Sniffies; MeetMe; Tinder, Bumble, Feeld, TikTok, Skout, Badoo, LiveMe, Holla, Whisper, Ask.fm, Xbox Live, Roblox, Among Us, Minecraft, Fortnite and all online gaming systems & platforms where you interact with others. The list is never-ending!!! When one APP finds a way to protect children, predators find away around that!
